O Lord Ganesha of Large body, curved trunk, with the brilliance of a million suns, please make all my work free of obstacles, always.

India is a land of contradictions. It is the World's most densely populated country and the tiger's natural habitat one amongst the rarest species of the world, deeply traditional and intensely modern. A land more than billion people, Twenty two official languages, thousands of dialects, and every religion, India defies categorization. A magical land that has enchanted millions around the globe ever since its discovery. Fables, stories and great prose has been written by persons who have known India. Where else would one find diversity in Language and Culture among fellow humans or the vast geographic distinction between far flung yet integral parts of one single country.

Much has been said, and much written about India. But what was once the remark of a Mughal ruler while praising a part of India effectively sums up the magic that India creates on its beholder. Inscribed on Deewan-E-Khas in New Delhi's Red Fort is the couplet;

" gar firdos baru hai zameen ast; hamin ast. hamin ast. hamin ast" If heaven be a place on earth. It is here. It is here. It is here...

- ❖ India is, the cradle of the human race, the birthplace of human speech, the mother of history, the grandmother of legend, and the great grandmother of tradition. Our most valuable and most instructive materials in the history of man are treasured up in India only. -By Mark Twain
- ❖ If there is one place on the face of earth where all the dreams of living men have found a home from the very earliest days when man began the dream of existence, it is India. -By Romain Rolland, a French scholar.
- ❖ There are some parts of the world that, once visited, get into your heart and won't go. For me, India is such a place. When I first visited, I was stunned by the richness of the land, by its lush beauty and exotic architecture, by its ability to overload the senses with the pure, concentrated intensity of its colors, smells, tastes, and sounds... I had been seeing the world in black & white and, when brought face-to-face with India, experienced everything re-rendered in brilliant Technicolor. -By Keith Bellows.

Ayurveda: Ayurveda is a science in the sense that it is a complete system. It is a qualitative, holistic science of health and longevity, a philosophy and system of healing the whole person, body and mind. Life according to Ayurveda is a combination of senses, mind, body and soul. So it is clear that Ayurveda is not only limited to body or physical symptoms but also gives a comprehensive knowledge about spiritual, mental and social health.

Some of the Special Ayurveda Treatments are:

Shirodhara:

Warm oil is slowly poured over your forehead. This massage is used for excess vata, insomnia, depression, ...

Pizhichil:

For physical and psychical relaxation. Oil is poured over the whole body and is massaged into the skin by two massage-therapists.

Yoga : Yoga is a physical, mental, and spiritual discipline, originating in ancient India. The goal of yoga, or of the person practicing yoga, is the attainment of a state of perfect spiritual insight and tranquility. The goals of yoga are varied and range from improving health to achieving moksha. The techniques used to bring the body, mind and breath in harmony is called yoga. By practicing yoga you can work miracles in your own life.

Meditation: An ordinary person may consider meditation as a worship or prayer. But it is not so. Meditation means awareness. Whatever you do with awareness is meditation. "Watching your breath" is meditation; listening to the birds is meditation. As long as these activities are free from any other distraction to the mind, it is effective meditation.

The love tribute of Emperor Shah Jehan to his wife Mumtaz Mahal - Taj Mahal - is considered to be the Love Temple for all couples who are in true love with each other. The local folklores say that only those who have true love in their hearts can see the real beauty of this white marble wonder.

Honeymoon tours in India are not at all dull and boring. There are a lot of activities to indulge in. Fulfill your wildest fantasies at India, as you indulge in sinful desserts and delicacies of a place and exchange your likes and dislikes with each other.
